

Stop Throwing Away Your Profits.

Extend Your Frying Oil Life by Up to 1000%

The breakthrough Longevity Powder that cuts frying costs, removes toxins, and delivers crispier food.

The Problem

In commercial kitchens, frying oil typically degrades within 3-5 days. In practice, it's often stretched much longer, creating smoke, bad tastes, releasing harmful fumes for the kitchen staff and building up dangerous trans fats consumed by customers. It also drives hidden **operational costs** through constant cleaning, heavy chemical use, increased labor, and unnecessary downtime.

Without Beyond Oil

After 3 Days

The Solution - Beyond Oil

Beyond Oil is a simple powder that works inside your existing filtration system to keep frying oil stable and consistent. It absorbs and removes the impurities that cause oil to degrade, allowing you to use the same oil for days longer without compromising quality.

Beyond Oil Benefits

Cut Costs Immediately - Reduce your oil purchases by up to 50%. Beyond Oil prevents the chemical breakdown of oil, meaning fewer change-outs and less waste.

ROI: The powder pays for itself in oil savings alone.

Better Food Quality - Cleaner, fresher oil creates consistently golden, crispier fried foods with improved taste, texture, and color, whether dine-in or delivery.

Safer & Cleaner Kitchens for Staff - Less splatter and burning, no toxic fumes, reduced odors, cleaner vents and hoods - creating a safer, more pleasant working environment and higher employee retention.

Healthier Fried Food - Unlike magnesium silicate or simple paper filters, Beyond Oil physically removes harmful carcinogens, trans fats, and toxins formed during frying.

Benefit: Serve cleaner, healthier fried food to your customers.

Sustainable & ESG Compliance - Sustainability is now a metric. By reducing oil consumption, you directly lower Scope 3 emissions and physical waste, helping you meet ESG commitments and regulations.

Product Specs & Ordering

Pack Size	Size
30	8.8 oz Pouch or 250 grams/pouch

Don't just change your oil. **Change your business.**

With Beyond Oil, kitchens become healthier, food tastes better, and operations run more efficiently - all while reducing waste and protecting the planet.
